| Enrollments 500 - 1000 | | $2,600 |
| Enrollments 1000 - 2000 | | $3,100 |
| Enrollments 2000 - 3000 | | $3,800 |
| Enrollments 3000 + | | $4,600 |
| Site Implementation | One time | $300 |
| Multiple Buildings (combined enrollment) * | Per building/year | $500 |

* maximum of 5 schools or 5000 students, whichever is greater

## Pricing Details

Standard support is included at no additional charge. Standard training and documentation is also included without charge. Subscription Fees listed are for Year 1 of the Agreement and include standard hosting services and standard support. Site Implementation Fees are based on standard hours required to perform the baseline site setup.

Subscription fees may be discounted for partial school years, as well as add on modules. Discounted pricing is also available for school districts with multiple schools subscribing to Student Support Time.

Additional fees may apply for text messaging options (based on number of messages sent).

## Additional Modules

The primary focus of Student Support Time is to manage your school's academic intervention or targeted support program. SST also has additional modules to support other needs, including:

**Teacher Journal -** tracks school to home communication and facilitates communication between teachers and staff.

**Teacher Availability -** Teachers easily set their weekly before and after school office hours; it is made available to students and their parents and students can sign up for help.

**College Visit Sign-up -** College visits are synced with Google or other calendar programs to allow students to sign-up for college visits. Students receive digital hall passes via email, attendance is tracked.

**Testing Center Scheduler/Academic Tutors -** Teachers can request times for students to utilize the testing resource center for test taking or academic assistance. Academic mentors, or tutors, can post their availability and students can sign up for tutoring/mentoring. Teachers can also request mentors and assistants for their classroom.

**Digital Hall Passes -** Reduce the need for paper hall passes and track in/out of building and other types of passes (including student issued passes) with scannable QR codes. Passes can be sent via email or text message.

**Parent/Teacher Conferences -** easy tool to set up conferences for teachers and allow parents/guardians to sign up for conferences. Includes features such as early scheduling for select students, and configurable types of conferences.

**Personalized Learning Plan -** allows students to plan out their 4 year academic schedule. Includes graduation requirement planning, year based tasks and reflections on students interests and plans.

**Office Visit Tool -** ideal for tracking and queuing student visits to office locations. Configurable for your building(s) and works great with the Journal. Students can sign up via iPad or Chrome book.

**Student Referral** - easy to use tool that allows teachers to refer students who have behavior or academic issues. Administrators are notified of referrals, resolution/consequences are tracked and referring staff notified

**Detention Tracker/After School Programs -** used to track and notify students and/or parents about detention or extra after school help.

**Student Support Teams** - used to coordinate and track student support and intervention (RTI). It was designed to have a flexible, yet cohesive tool for support teams to identify, track and verify student progress.

| Module | Term | Amount |
